- THE COMPANY FOCUSES ON MAINTAINING SEAMLESS AND UNINTERRUPTED CONNECTIVITY WHILE CONTINUOUSLY ADVANCING ITS TECHNOLOGICAL CAPABILITIES.
- THE LAUNCH OF 5G REPRESENTS A SIGNIFICANT STEP IN WAVECON'S JOURNEY TOWARD TECHNOLOGICAL INNOVATION AND REINFORCES ITS COMMITMENT TO DELIVERING NEXT-GENERATION TELECOM SERVICES.

# AGENDA

Following the launch of its 5G services, Wavecon has experienced a decline in both revenue and active users. To understand the factors driving this decline and identify opportunities for improvement, the company aims to analyse the following key objectives:

- What is the impact of the 5G launch on our revenue?
- Which KPI is underperforming after the 5G launch?
- After the 5G launch, which plans are performing well in terms of revenue? Which plans are not performing well?
- Is there any plan affected largely by the 5G launch? Should we continue or discontinue that plan?
- Is there any plan that is discontinued after the 5G launch? What is the reason for it?

# WHICH KPI IS UNDERPERFORMING AFTER THE 5G LAUNCH?

## Insights:

- **7 million** user drop suggests revenue decline.
- **Pune's 18.06%** increase in active users stands out. Ahmedabad shows the most impact on user base.
- **Lucknow & Chennai** maintain steady active user counts
- **1.4 million user** increase linked to 5G dissatisfaction.
- **Lucknow** sees a **77.91%** rise in unsubscribed users.
- **Mumbai's** unsubscribed user rate decreases by **12.63%**.

### Insights:

- **P1 is the highest-performing plan**, generating the highest overall revenue of ₹4,199M. Its strongest revenue contributions came from **July (₹628M), August (₹620M), and September (₹603M)**.
- **P2 and P3** are the next top-performing plans, generating ₹2,975M and ₹2,615M in total revenue, respectively. Lucknow & Chennai maintain steady active user counts
- **P10 and P9** are the weakest-performing plans, with total revenues of only ₹131M and ₹227M, respectively. Lucknow sees a 77.91% rise in unsubscribed users.
- The significant gap between the top- and bottom-performing plans highlights an opportunity to evaluate **customer adoption, pricing, and plan-level performance** to identify potential areas for improvement.

# IS THERE ANY PLAN AFFECTED LARGELY BY THE 5G LAUNCH? SHOULD WE CONTINUE OR DISCONTINUE THAT PLAN?

## Insights:

- **P7 (Smart Recharge Pack)** recorded a significant **73.28%** decline in revenue following the 5G launch; discontinuing the plan is advisable given its sustained poor performance.
- **P1 (Smart Recharge Pack)** delivered strong growth, with revenue increasing from **₹1.8B to ₹2.4B (31.66%)**, reflecting robust customer demand.
- **P13 (Ultra Fast Mega Pack)**, a newly launched 5G plan, generated **₹1.9B** in revenue, indicating strong customer adoption.
- Overall, the performance suggests an opportunity to phase out underperforming plans while strengthening high-growth and successful 5G offerings.

# IS THERE ANY PLAN THAT IS DISCONTINUED AFTER THE 5G LAUNCH? WHAT IS THE REASON FOR IT?

| Plan | Plan Description                             | Revenue Before 5g | Revenue After 5g |
|------|----------------------------------------------|-------------------|------------------|
| p8   | Daily Saviour (1 GB / Day) validity: 1 Day   | 434M              | NA               |
| p9   | Combo TopUp: 14.95 Talktime and 300 MB data  | 227M              | NA               |
| p10  | Big Combo Pack (6 GB / Day) validity: 3 Days | 131M              | NA               |

● Revenue Before 5g ● Revenue After 5g

## Insights:

- **P8 – Daily Saviour (1 GB/Day):** Discontinued due to its **limited validity and relatively low data allowance**, making it less suitable for the higher data consumption associated with 5G usage.
- **P9 – Combo TopUp (₹14.95 Talk Time + 300 MB Data):** Discontinued due to its **limited data offering and low talk-time benefit**, reducing its appeal compared with more comprehensive plans.
- **P10 – Big Combo Pack (6 GB/Day):** Discontinued because of its **short 3-day validity**, which may not provide sufficient flexibility for customers seeking sustained 5G connectivity.

# RECOMMENDATIONS

1. **Network Enhancement:** Improve 5G network performance and quality while introducing new compatible devices and services.
2. **Coverage Expansion:** Strengthen 5G infrastructure and expand network coverage to ensure wider and more reliable connectivity.
3. **Competitive Pricing:** Develop transparent and competitive pricing plans to attract new customers and improve customer retention.
4. **Customer-Centric Approach:** Strengthen customer support by addressing concerns promptly and using customer feedback to improve services.
5. **Plan Optimization:** Focus on promoting high-performing plans and continuously evaluate plan performance using relevant KPIs.
6. **Innovative Services:** Introduce new and differentiated services and features to strengthen Wavecon's competitive position.
7. **Digital Transformation:** Leverage digital platforms for sales, customer support, and engagement to provide customers with greater convenience and accessibility.
